### Adagio

When the young bird learns to fly, when the young bird learns to fly, fly,  
When the young bird learns to fly, when the young bird learns to  
When the young bird learns to fly, when the young bird learns to fly,

learns to fly, it first spreads its wings, it first spreads its wings, it  
fly, it first spreads its wings, spreads its wing and  
fly, learns to fly, it first spreads its wings, it first spreads its wings,

first spreads its wings and then lets go, lets go, and then lets go. With a leap, it  
then lets go, lets go. With a leap it  
it first spreads its wings and then lets go, lets go, and then lets go. With a leap,

soars, it soars, it soars, it soars, it soars up high.  
soars up high  
it soars, it soars, it soars, it soars up high.
